

Vehicle Systems Cable Assemblies Part Number Changes: Power Leads and Communications Cables

In order to simplify the ordering process, engineering efforts, and field recognition of cable assemblies, we are standardizing the part numbers of our power leads and communications cables (pictures can be found on the next page). In addition, we now offer 20 and 30 ft. lengths of the power lead assembly. The table below shows the new part numbers for these cables. The cables will be the same in form, fit, and function; from a customer standpoint this is a label and part number change only. The changes will be made effective immediately. Please take the time to update your systems to reflect these changes. If you have any questions please contact the Amerex VFSS team.

New P/N	Current P/N	Description	New P/N	Current P/N	Description
26620-10	14016	LEAD ASY PWR VS 10FT	26619-18IN	14473	CABLE COMM VS 1.5FT
26620-15	14799	LEAD ASY PWR VS 15FT	26619-03	14474	CABLE COMM VS 3FT
26620-20		LEAD ASY PWR VS 20FT	26619-10	14925	CABLE COMM VS 10FT
