HAND-PORTABLE FIRE EXTINGUISHERS

Quality is Behind the Diamond

PORTABLE FIRE EXTINGUISHERS FROM **AMEREX**

AMEREX portable fire extinguishers have been the industry standard for more than 50 years. Since 1971, our commitment to quality, service, and innovation has been unmatched.

Quality is Behind the Diamond—in every product.

People never think twice about fire extinguishers until they need one, but when they need one the extinguisher must work. At Amerex, we all work together to make sure we're delivering the best quality products available. From our quality audits at each level of production to shipping

preparations before leaving the warehouse, you know the products you receive are what you have come to expect from Amerex. With warehouses located in Oakland, NJ; Elk Grove Village, IL; Santa Fe Springs, CA; and Trussville, AL, you are assured that product lead times are at a minimum.

For more detailed product and ordering information, visit webstore.amerex-fire.com.

Longer life, lower cost and the best warranty in the industry—**that's quality behind the diamond.**

All Amerex Fire Extinguishers comply with the recommendations of the **National Fire Protection Association** and are tested and rated by **Underwriters Laboratories**or **FM Global** to **UL Standards**. All extinguisher nameplates contain the necessary HMIS information to comply with national and local OSHA requirements.

WHERE TO USE

AMEREX manufactures a variety of hand-portable and wheeled fire extinguishers, both "compliance" (code required) and "specialty" types.

"Compliance" extinguishers are designed to meet and exceed state or local fire protection requirements. "Specialty" extinguishers are intended for use on particular types of hazards. Careful attention should be paid to locating them in close proximity to the specific hazard they are meant to protect. It is natural for a person to use the extinguisher located nearest to a fire. The most current issue of NFPA-10 should be consulted for minimum recommended fire extinguisher types, placement, and travel distances. Your local Amerex Fire Equipment

Distributor is professionally equipped to help you evaluate and implement these recommendations. All "Pictograms" are detailed below and should be reviewed with all who might be expected to use a fire extinguisher. Everyone should be familiar with these picture symbols which identify the types of fires on which they may be used. The international sign system diagonal red slash indicates a potential danger if the extinguisher is used on that particular type of fire.

TYPES	YPES OF FIRES							
Class A	Ordinary combustibles	Wood, paper, rubber, fabrics, and many plastics						
Class B	Flammable liquids & gases	Gasoline, oils, paint, lacquer, and tar						
Class C	Live electrical equipment	Fires involving live electrical equipment						
Class D	Combustible metals or combustible metal alloys	Magnesium, titanium, potassium	D					
Class K	Fires in cooking appliance that involve combustible cooking media	Vegetable or Animal Oils, and Fats	& _					

Types of Extinguishers						
Class A						
Class A:B						
Class A:B:C						
Class A:C						
Class B:C						
Class D	D					
Class A:K						

HOW TO USE

All **AMEREX** extinguishers are furnished with a detailed "Owners Manual" containing valuable information. The manual contains information on the installation, use, and maintenance of the extinguisher. The extinguisher nameplate contains specific information on "HOW TO USE" the particular extinguisher. The label instructions vary slightly according to type and size. All potential operators should be familiar with the instructions on any extinguisher they might be required to use.

OPTION

Model 506B Anti-Freeze Charge

MODEL 240 utilizes the cooling, soaking, and penetrating effect of a 45-55 foot stream of WATER. The 55-second discharge time makes it very effective for inexperienced operators for use on Class A fires that include combustibles such as wood, cloth, paper and many plastics. This section constructed with a chromeplated brass valve and polished stainless steel cylinder, which helps eliminate corrosion.

WET CHEMICAL

WET CHEMICAL extinguishers are the best restaurant kitchen appliance hand-portable fire extinguishers you can purchase. Each model utilizes a specially blended potassium acetate base agent and has been tested and approved by UL for restaurant kitchen hazards. The recent trend to more efficient cooking appliances and use of vegetable-based cooking oils dictates the use of a hand-portable fire extinguisher with greater fire-fighting capacity and cooling effect to combat these very hot and difficult fires. The Class K is available in two sizes; 6 liter or 2½ gallon—with attractive stainless-steel cylinders and easy-to-use hose-and-spray application nozzle. The superior fire-fighting capability of the Wet Chemical agent is placed exactly where you aim it with no dry chemical residue to clean up. The Models C260 and C262 are the ideal "KITCHEN USE" fire extinguishers. They supplement existing cooking equipment automatic system protection for an extra margin of safety.

RUGGED

- 5-Year Manufacturer's Warranty
- Stored Pressure Design
- Polished Stainless Steel Cylinders— USCG Models have Durable High-Gloss Polyester Powder Paint Coating
- All Stainless Steel Valve Construction
- Exclusive Crevice-Free, Butt-Welded Cylinder
- Tested on Commercial Deep Fat Fryers to UL711 Test Protocol and Safe to Use on Energized Electrical Appliances
- Class 2A Rated to Meet Fire Code Occupancy Hazard Requirements
- Temperature Range +40°F to 120°F

USER FRIENDLY

- Factory Charged
- Large Loop Stainless Steel Pull Pin
- Agent Discharged as a Fine Mist— Helps Prevent Grease Splash and Re-flash While Cooling the Appliance
- Precise Extinguishing Agent Application

- No Powder Residue
- QR Coded and Multilingual Labels

WATER MIST is the ultimate extinguisher for Class A fires and for locations where a potential Class C (electrical) hazard exists. The fine spray from the unique misting nozzle provides safety from electrical shock, greatly enhances the cooling and soaking characteristics of the agent, and reduces scattering of burning materials. The Amerex Water Mist extinguishers contain de-ionized water (sold separately) making them the best extinguishers for protection of hospital environments, telecommunication facilities, and "clean room" manufacturing facilities. The Amerex Water Mist extinguishers are easy to use, maintain, and service.

MR CONDITIONAL

Non-magnetic Construction Tested by an Independent Agency for use in MRI Facilities to 11.7 Tesla (including wall hanger bracket)

HALOTRON BRX™ (2-BTP)

HALOTRON BRX™ (2-BTP) Amerex provides a unique solution for Halon 1211 replacement. These extinguishers utilize Halotron BrX to fulfill the next generation of aviation extinguisher requirements. BrX is a low GWP and very low ODP clean agent approved for use on commercial aircraft. The extinguishers are constructed of a lightweight aluminum valve assembly and cylinders (Model 351 has a steel cylinder). Models 349 and 351 include a hose that allows the operator greater flexibility for utilization in tight spaces. Amerex is the solution for all of your aviation portable extinguisher needs.

RUGGED

- 6-Year Manufacturer's Warranty
- Stored Pressure Design
- Aluminum Cylinders (Model 351 has a Steel Cylinder)
- Durable High-Gloss Polyester
 Powder Paint
- All-Metal Valve Construction
- Hose is Unique to Amerex Product (Model 349 and 351)

- Extinguishers are Maintained in Accordance With NFPA 10
- Hose Provides Greater Access to Tight Spaces—Offering Greater Flexibility When Using the Extinguisher (Model 349 and 351)
- Temperature range: -40°F to 120°F
- Amerex Manufactures our Product In-House and Has Full Control Over our Supply Chain, Manufacturing, and Engineering.

FAA APPROVED

- All models have been tested for aircraft use by NTS to the shock and vibe sections of RTCA DO-160G
- Models 347, 349 and 351 are FAA approved in accordance with DOT/FAA/AR-01/37

USER FRIENDLY

- Maximum Visibility During Discharge
- Large Loop Stainless Steel Pull Pin (Model 351)
- No Electrical Conductivity Back to the Operator
- No Thermal or Static Shock
- Leaves No Residue
- QR Coded and Multilingual Labels

ENVIRONMENT

- EPA approved "Clean Agent" for Class A, B and C hazards
- Low GWP 0.26 (100 year)
- Low ODP 0.0028
- Short Atmospheric Lifetime

MODEL 351 SHIPS WITH A WALL BRACKET.

MODEL 809 VEHICLE BRACKET IS SOLD SEPERATELY.

- Chrome Cylinders (See chart at right)

HALOTRON™ I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, non-corrosive, and leaves behind no residue. Halotron I is the clean agent market leader with a history of successful real-world protection of valuable assets. From model-scale aircraft to wide-body commercial aircraft, from data centers to pharmaceutical and other industrial plants, the Halotron I agent has been used to extinguish the fire, limit damage, and help reduce downtime that can be caused by other agents.

Applications for these extinguishers include: data centers, laboratories, manufacturing plants, general office areas, computer rooms, telecommunication facilities, clean rooms, control rooms, warehouses, military electronics, vehicles including classic autos, boats, engine compartments, aircraft ramps, on-board aircraft, and in facilities that service aircraft and any facility where dry chemical extinguishers could cause unacceptable damage or contamination.

HALON 1211

HALON 1211 is a liquefied gas, pressurized with nitrogen, which discharges as a vapor causing no cold or static shock and no impairment of the operator's vision. This "CLEAN" agent quickly penetrates difficult-to-see and hard-to-reach areas and leaves no residue. It is recommended for protection of delicate, sensitive, and expensive computers, electrical equipment, tapes and film, automotive and aircraft engines, laboratory chemicals and equipment.

RUGGED

SPECIALIZED EXTINGUISHERS

Quality is Behind the Diamond

CLASS D

The Amerex "soft flow" extension applicator is particularly suited for fighting **CLASS D** fires. It allows the operator to stand away from the extreme heat and toxic fumes caused by burning material. The easily controlled, even discharge provides a non-dispersing application of the agent. The extension applicator may be quickly detached to provide a straight stream of chemical where greater range is required.

RUGGED

- 6-Year Manufacturer's Warranty
- Stored Pressure Design
- Dependable Drawn-Steel Cylinders
- Class D Color-Coded Paint Finish
- All-Metal Valve Construction
- Temperature Range -40°F to 120°F

USER FRIENDLY

- Unique "Soft Flow" Extension Applicator Plus Built-In Long-Range Nozzle
- Large Loop Stainless Steel Pull Pin
- QR Coded and Multilingual Labels

OPTION

 MODEL 859 Dolly Cart provides for easy transport

*MODEL C571 DUE TO THE DENSITY OF COPPER, EXTRA AGENT IS ADDED TO ACHIEVE 30 LBS. OF AGENT DISCHARGE AT A 45° ANGLE.
THE ACTUAL EXTINGUISHING AGENT WEIGHT—WHEN FULLY CHARGED IS 41½ LBS.

MANUFACTURED AND TESTED TO UL STANDARDS

COMPLIES WITH NFPA 10 STANDARD ISO-9001/ISO-14001 CERTIFIED FM APPROVED

CONFORMS TO TEST STANDARDS:

CAN/ULC-S504 - UL 299 & CAN/ULC-S508 - UL 711

MODEL B570 contains a special blended Sodium Chloride-based dry powder extinguishing agent. Heat from the fire causes it to cake and form a crust excluding air and dissipating heat from burning metal. Metal fires involving magnesium, sodium, potassium, and sodium-potassium alloys can be successfully extinguished with this extinguisher. There is data showing that zirconium, uranium, titanium, and powdered aluminum fires can be controlled and extinguished with this unique extinguisher.

Extinguishing Capacity:

Magnesium Chips: 4 ft.² and/or 6 lbs. of metal Sodium or Potassium Spill: 5 ft.² and/or 5 lbs. of metal Sodium or Potassium Spill Depth Over ": 3 ft.² and or 6 lbs. of metal Sodium Potassium Alloy Spill: 3 ft.² and/or 2 lbs. of metal

AVAILABLE IN 150-LB. WHEELED EXTINGUISHER

MODEL C571 contains a copper extinguishing agent specially developed by the U.S. Navy for fighting lithium and lithium alloy fires. The copper compound smothers the fire and provides an excellent heat sink for dissipating heat. Copper powder has been found to be superior to all other known fire extinguishing agents for lithium metal fires. **Not recommended for lithium-ion battery fires.**

Extinguishing Capacity;

4 ft.2 and/or 5 lbs. of lithium

AVAILABLE IN 250-LB. WHEELED EXTINGUISHER

Z-SERIES HIGH PERFORMANCE

Z-Series extinguishers are the ultimate choice in fire extinguishers for high hazard, frequent use, and extreme environment applications. Economical—less initial cost, lower maintenance costs, and greater reliability than cartridge-operated extinguishers. Amerex Z-Series extinguishers are available with a proprietary, zinc-enriched coating that resists corrosion for up to 12 years in severely salt-contaminated environments.

RUGGED

- 12-Year Manufacturer's Warranty
- Zinc-Enriched Coating
- All-Metal Valve Construction
- Chrome-Plated Brass Gauge Guards
- Protective Rubber Foot Rings
- Superior vertical and horizontal
- **Higher Operating Pressure**
- Temperature Range -65°F to 120°F
