

# FIRE PROTECTION FOR OIL & GAS INDUSTRY

 The AMEREX Z-Series line of high performance extinguishers bring even more performance, reliability, and value to corrosive conditions. The top choice of oil and gas professionals for more than two decades, High-Performance extinguishers from Amerex combine legendary knock-down power with an outstanding life span and an overall lower cost than anything else currently available.

The Z-Series goes head to head with environments containing corrosive chemicals, gases, or salt air or water, providing unmatched resistance to damage, providing unmatched resistance to damage, distress and wear. The innovative zinc-based primer created by the Amerex research and development team makes this product a rugged solution for longstanding durability problems in harsh environments around the world.

## BENEFITS OF STORED-PRESSURE EXTINGUISHERS

Extremely low maintenance costs make stored-pressure extinguishers an ideal choice for extended use in harsh surroundings. Stored-pressure extinguishers mean no separate nitrogen cylinder or regulator to test, no chemical contamination, no moisterseals or high-pressure hoses to replace or inspect, and fewer parts requiring replacement over time. With low maintenance costs, affordable price points, high reliability and general ease of use, stored pressure extinguishers are an ideal choice.

## Z-SERIES FEATURES & BENEFITS

- 12-year warranty
- Highest achievable UL ratings
- Proprietary corrosion-resistant paint process
- Choice of ABC or Purple K dry chemical
- Compliance Flow and Fast Flow discharge
- Severe corrosion tested in accordance with ISO 21207

*Safety and Environmental experts turn to Amerex because they trust the reliability of the brand. Amerex fire extinguishers are easy to maintain, providing value and dependability to rugged environments.*

# FIRE PROTECTION FOR OIL & GAS INDUSTRY

## HIGH PERFORMANCE Z-SERIES WHEELED EXTINGUISHERS

Just like our hand-held units, Z-Series High-Performance wheeled extinguishers offer superior reliability, corrosion resistance, and affordable maintenance costs. Amerex wheeled extinguishers have exceptional range and flow rate, making them ideal for use with combined agent attacks to extinguish escape points of flammable liquids under pressure. Our wheeled units meet test standards CAN/ULC S504 and S508, plus ANSI/UL 299 and 711. Each unit has the option of being equipped with 36" x 6" wheels with non-sparking rubber treads.

## WHEELED UNIT FEATURES & BENEFITS

- Carriage design rests the agent cylinder and hose above ground for protection
- Chrome-plated brass shut-off valve with swivel pistol grip outperforms aluminum.
- Large, easy-to-read pressure gauge with stainless-steel gauge guard.
- Separate 3" fill port with chrome-plated brass cap.
