Section 4. FIRST AID MEASURES

Eye Exposure: May cause eye irritation. Irrigate eyes with water and repeat until pain free. Remove contact lenses and continue to rinse. Seek medical attention if irritation continues.

Skin Exposure: May cause skin irritation. In case of contact, wash with plenty of soap and water. Seek medical attention if irritation persists.

Inhalation: May cause irritation, along with coughing. If respiratory irritation or distress occurs, remove victim to fresh air. Seek medical attention if irritation persists.

Ingestion: Overdose symptoms may include nausea, diarrhea, and general ill feeling. If victim is conscious and alert, give 2-3 glasses of water to drink. If conscious, do not induce vomiting. Seek immediate medical attention. Do not leave victim unattended. To prevent aspiration of swallowed product, lay victim on side with head lower than waist.

Medical conditions possibly aggravated by exposure: Inhalation of product may aggravate existing chronic respiratory problems such as asthma, emphysema, or bronchitis.

Section 5. FIRE-FIGHTING MEASURES

Flammable Properties: Not flammable
Flash Point: Not determined
Suitable Extinguishing Media: Non-combustible. Use extinguishing media suitable for surrounding conditions.
Hazardous Combustion Products: Carbon dioxide and water.
Explosion Data:
  Sensitivity to Mechanical Impact: Not sensitive
  Sensitivity to Static Discharge: Not sensitive
Unusual fire/explosion hazards: None
Protective Equipment and Precautions for Firefighters: As in any fire, wear self-contained breathing apparatus in pressure-demand, NIOSH approved or equivalent and full protective gear.
Section 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Avoid contact with skin, eyes, and clothing.
Personal Protective Equipment: Minimum - safety glasses, gloves, and a dust respirator.
Emergency Procedures: NA
Methods for Containment: Prevent further leakage or spillage if safe to do so.
Methods for Clean Up:  
Small spill - Absorb liquid on vermiculite, floor absorbent, or other absorbent material and transfer to a fume hood.
Large spill – Prevent runoff to sewers, streams or other bodies of water. If runoff occurs, notify proper authorities as required, that spill has occurred. Use protective clothing and devices as required. Stop spill at source.

Environmental Precautions: Prevent material from entering waterways.
Other: If product is contaminated, use PPE and containment appropriate to the nature of the most toxic chemical/material in the mixture.

Section 7. HANDLING AND STORAGE

Personal Precautions: Use appropriate PPE when handling or maintaining equipment, and wash thoroughly after handling (see Section 8).

Conditions for Safe Storage/Handling: Containers of this material may be hazardous when emptied. Since empties containers retain product residues (vapor, liquid, and/or solid), all hazard precautions given in the data sheet must be observed.

Incompatible Products: Not available.

NR = Not Regulated. All values are 8 hour time weighted average concentrations.
Engineering Controls:
- Showers
- Eyewash stations
- Ventilation systems

Personal Protective Equipment – PPE Code E:
- Eye/Face Protection: Tightly fitting safety/splash goggles
- Skin and Body Protection: Wear protective gloves and normal work clothing.
- Respiratory Protection: Use N95 dust mask for limited exposure; use air-purifying respirator (APR) with high efficiency particulate air (HEPA) filters for prolonged exposure. Positive-pressure-demand supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations. The need for respiratory protection is not likely for short-term use in well ventilated areas.

Hygiene Measures:
- Good personal hygiene practices essential, such as avoiding food, tobacco products, or other hand-to-mouth contact when handling. Wash thoroughly after handling.
